

Sunshine Kids Academy SUMMER SCHOOL 2023

Animal Planet

Jul 24th 2023 - Sep 1st 2023

Come and join us this summer to explore the diversity of our Animal Planet!

Our program will satisfy the innate curiosity of our students to explore various classes of animals, including sea life, endangered species, wildlife, and more. Through engaging lessons and activities, students will gain new knowledge of the animal kingdom with life and nature. Related science activities provided will also enable students to classify different types of animals including vertebrates and invertebrates, mammals, insects and other species. We will also use this opportunity to explore the role of human and how humans' actions impact the natural habitats of these incredible creatures on our planet Earth.

The Mighty Jungles

Week 1 | Jul. 24th - Jul. 28nd

Swing by the jungle to investigate our mighty jungle animals that have been surviving well deep down in the woods. We will also learn about how mighty these animals are, and what makes them unique and special with their unique abilities to survive in this deep jungle.

The Wide & Wild Deserts

Week 3 | Aug. 7th - Aug. 10th

Known to be barren area of landscape with minimal precipitation, sparse vegetation, and hostile living conditions, let us take a trip down the road and explore how animals can make this environment their friendly home, how they still strive without much water, and what they did eat.

The Cozy Meadows

Week 5 | Aug. 21st - Aug. 25th

It is a great time to learn and enjoy peace and be one with the nature. Learn how the animals thrive their best life in the meadows, and even to what these animals can produce for us, humans, to enjoy in our daily lives. Let's learn also their ways of living, and their other farm friends in the meadows.

The Amazing Rainforests

Week 2 | Jul. 31st - Aug. 4th

Discover rainforest as the important role that they provide in our earth ecosystem as the lungs of the world. As there are various canopies in the rainforests, students will also learn how different animals live in each of the rainforest layers as their habitats.

The Seven Seas

Week 4 | Aug. 14th - Aug. 18th

Come and aboard the ship with us as we set the sail across the vast oceans in search of the unique creatures to call the sea their home. The students will learn about unique creatures that call the sea their home.

The Arctic Glaciers

Week 6 | Aug. 28th - Sep. 1st

It is a great time to explore the glaciers, as glaciers worldwide are shrinking. There are various animals living in the glaciers. Come and explore the avian behavior of the glaciers, the elks and other mammals, and also rabbits and hares. These organisms rely on ice, snow, and cold temperatures as their environment for their way of living.
